What has been your most show so far: Moscow, Russia... the fans are awesome! They bought me gifts, they went crazy for the riders, and it seems to be the only place in the world that truly respects the whip with loud cheers.

What was the craziest thing you did last year on a sled: I over jumped a 100ft step down at X-Games and crashed out. It's the worst and hardest I have ever hit in my life!
What trick scares you the most: Cliffhangers and Flips! Cliffhangers are my favorite but scare me every time I do them. Flips are mental for me.

Your gnarliest scar story: In 2003 I hit a lip in Cooke City when it was windy and flat light. When I hit my mouth took all of the impact and knocked out all my front teeth and pushed the top part of my mouth back 2 inches. I ate the bars hard!
